

Flex Smart+

Join Flex Smart+ and put your smart devices to work supporting Bainbridge Island's growing energy needs. This voluntary program is designed to reduce the need for new energy infrastructure and help ensure energy is available when it's needed most across the community.

Ways to participate include

Smart thermostats

Smart water heaters

Electric vehicle charging

Home battery systems

Here's how it works

When energy demand is high, PSE may call a "Flex event" to help ease strain on the grid. During these times, your connected devices can automatically make small, temporary adjustments. It's almost effortless, and you'll play an important role as we work together to prevent spikes in energy use.

Extra \$75 for Bainbridge Island residents

Join Flex Smart+ and receive a **\$75 bonus**, plus standard Flex incentives. Receive annual incentives to earn even more the longer you're in the program.

Sign in to your PSE account to enroll. Questions? FlexSmartPlus@PSE.com or 1-833-203-1947.

Must be a single-family or multifamily residential customer on Bainbridge Island with home heat provided by PSE electricity and an AMI meter to qualify.
